

Technical sheet

Mirage

Mirage is a semi-finished bovine leather with a light polyurethane microsphere topcoat, developed to achieve a soft matte nubuck look while offering moderate surface protection.

As a lightly coated semi-finished leather, moderate sensitivity to friction and moisture, as well as slight colour transfer under rubbing, are inherent characteristics of this article.

Mirage is intended for normal residential use and for customers who appreciate a natural, evolving leather surface. Natural changes in colour and appearance will occur with use over time.

Origine hides			NOT European
Average size			4,8 m2
Thickness			1.4-1.6 mm
IUF 450 / UNI EN ISO 11640 – EN ISO 11641			
Colour fastness to rubbing		200 cycles dry	min 3/4 grey scale
		100 cycles wet	min 3/4 grey scale
			No damage on finish
IUP 20, UNI EN ISO 5402			
		N/A	N/A
ISO 3377-1			
Tear resistance			≥20 N
IUF 470, UNI EN ISO 11644			
		N/A	N/A
UNI EN ISO105-B02 (xenon test)			
Colour fastness to artificial light, 72h exposition			≥3 blue scale

All our leathers comply with the strict regulations and EU Directives covering the use and presence of PCP, CFC, Chromo (VI) and Azo dyestuffs during the tanning process. Due to the natural properties of leather colour variations between one dye lot and another may occur. // The General Conditions of Ropelli B.V. (which are registered at Chamber of Commerce NL reg. nr. 64778010) apply on all our conventions. In particular (article 7), Client is responsible for having established whether the products meet the requirements arising from the intended use by Client. The values in this technical sheet are not a warranty in legal sense.
